Project Services

Our extensive range of hardware systems and experience provides unique and valuable support to decision makers on projects of all sizes, such as investors, developers, installers, architects and clients. Experienced project support is available at all stages of the design process, from concept to handover, as well as support for ongoing maintenance. Häfele provides design consulting for integrated and coordinated hardware selection, including samples, training seminars and technical advice. In conjunction with selected partners Häfele can also offer a supply and fit service for Doors, Glazing and Access Control systems.

Häfele Access Control Systems

Häfele UK have sourced a collection of some of the latest and most innovative fittings and products available in the industry, now shown in the Häfele Electronic Security and Access Control catalogue. If you should need help or advice to select the right access control system for your project then our specialist team at head office will be pleased to help.
Specialist Sales Team

Because the range of fittings we offer is so comprehensive we have, at Häfele, a Specialist Sales Team to give you expert advice and service. We offer a comprehensive **free** scheduling service, a **free** recommendation and quotation service for all our systems, and technical advice.
