B | Glass splashbacks

- Glass conforms to EN 12600
- Pre-drilled for screw fixing to wall. Fixings included
- 6 mm thick toughened glass
- Hygienic and easy to clean
- Can be fixed to any non-pourous, dry, dust and grease free surface e.g. Plastered walls, gyp board, tiles, MDF, chip board etc
- 2 mm gap should be left around all sides
- Clear glass - to allow background to show through
- Toughened glass with polished edges

| Finish	Width x Height (+/- 2 mm tolerance)		
	595 x 745 mm	895 x 745 mm	995 x 745 mm
Crystal	564.83.240	564.83.242	564.83.245

Order qty: 1 pc

A | Glass splashbacks

- Glass conforms to BS 62606 and PREN 12000
- Self-adhesive backing for quick and easy installation
- 6 mm thick toughened glass
- 8 mm overall thickness including backing
- Hygienic and easy to clean
- Glass is structurally very strong: combined with the adhesive backing and fixed to a plasterboard wall it takes a huge impact to break the glass. If the glass should break it will not shatter and will be held safely on the wall by the adhesive backing
- Can be fixed to any non-pourous, dry, dust and grease free surface e.g. Plastered walls, gyp board, tiles, MDF, chip board etc
- 2 mm gap should be left around all sides
- Must be sealed on all sides with a sanitary silicone sealant after installation to prevent dirt and moisture getting behind. If moisture does get behind the glass it will not effect the adhesive backing and will not be visible from the front face
- Opaque coloured glass - does not allow any show through of background
- Lifetime guarantee on the colour - will not degrade with heat or light
- Toughened glass with polished edges
