

### FlexiBasic leg

- Leg is designed to be fitted into a strong substrate but feet are available for weaker walls
- A cost-effective solution for height adjustable worktops.
- White painted steel

	Cat. No.
FlexiBasic leg	506.16.736

Order qty: 1 pc

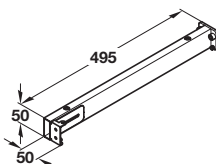

### Jack-up

- Can adjust the height required over a 300 mm range
- It is not necessary to remount the worktop before adjusting the height. Simply locate the Jack-up below the centre of the frame and the floor, release the two locking nuts, wind to the height required and tighten the locking nuts
- Only one jack-up is required for all VertiBasic and FlexiBasic frames, so the system is particularly suited to projects with several kitchens that may need adjustment
- White painted steel

**Text added**

	Cat. No.
FlexiBasic jack up	506.16.780

Order qty: 1 pc

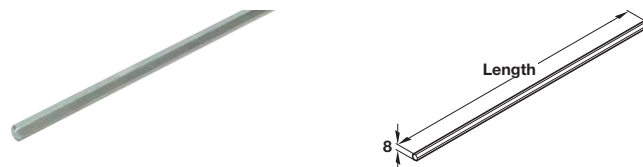

### Support for worktop

- Supports worktop depth 600-620 mm
- Recommended to use one every 600 mm of length
- Painted steel

Finish	Cat. No.
White	506.16.740

Order qty: 1 pc

### Wall bar profile and spindle

- With 8 mm steel spindle
- Can be cut to size (profile by 50 mm less than worktop, spindle by 100 mm less than profile)
- Aluminium

Wall bar profile / Spindle length	For worktop length	Cat. No.
1950 / 1850 mm	2 m	506.16.001
2950 / 2850 mm	3 m	506.16.002

Order qty: 1 pc

### VertiBasic height adjustable frame for wall units

- Frame height adjustable from 400-650 mm
- Frame width available for wall units 900/1000/1200/1500 mm
- Frame depth 65 mm
- White painted steel

For wall unit width	Cat. No.
900 mm	506.17.761
1000 mm	506.17.762
1200 mm	506.17.763
1500 mm	506.17.764

Order qty: 1 pc
