

**A Disposable half mask respirator**

- Convenient and easy to use. Supplied ready to use where gases and vapours may be found
- Low profile design offers improved field of vision, easy to fit with adjustable head harness and neck clip
- The face seal made of thermoplastic material contours to the face
- Low weight

| Protective class | Cat. No.   |
|------------------|------------|
| A2               | 007.48.603 |

Order qty: 1 pc

**B Reusable half mask respirator**

- For maximum hygiene and cost effectiveness. Provides high performance, low maintenance protection
- Low profile design offers improved field of vision, adjustable
- Face seal made of thermoplastic material with high flexibility for better comfort and safety
- Protective class ABEKP3 protection against all dust mists and fumes up to 20 x OEL (OEL = Occupational Exposure Limit)
- Supplied (as per photo), with exchangeable particle filters
- Large size

| Protective class | Cat. No.   |
|------------------|------------|
| ABEKP3           | 007.48.620 |

Order qty: 1 pc

**C Replacement gas filter cartridges**

- For use with respirator 007.48.620
- Protection levels:
  - A1** for protection against organic gases and vapours with a boiling point above 65°C, up to 10 times the valid limit or up to a concentration of 1000 ppm. For use when working with solvents created by mixing paints and adhesives
  - A2** for protection against organic gases and vapours with a boiling point above 65°C, up to 10 times the valid limit or up to a concentration of 5000 ppm. For use as A1 but to higher concentrations or for prolonged use
  - ABEK1** for protection against organic gases and vapours with a boiling point above 65°C, inorganic gases, acid gases and ammonia, up to 10 times the valid limit or up to a concentration of 1000 ppm. For use as A1 but with additional protection against H<sub>2</sub>S, SO<sub>2</sub>, hydrochloric acid and ammonia

| Protective class | Cat. No.   |
|------------------|------------|
| A1               | 007.48.685 |
| A2               | 007.48.686 |
| ABEK1            | 007.48.687 |

Order qty: 1 pair

**Item D.**  
Text added

**D Replacement particle filters**

- For use with respirator 007.48.620
- Protection levels:
  - P2RD** for protection against toxic dusts, mists and fumes up to 10 times the valid limit. For use when working with hardwood, glass fibre and plastics, metalworking and welding
  - P3RD** for protection against all dusts, mists and fumes up to 20 times the valid limit. For use when working with highly toxic metals, biochemical substances and biologically active aerosols

- The 'R' denotes that the filter is re-usable
- The 'D' denotes that the filters have passed the optional clogging test. Providing better breathing resistance for longer

| Protective class | Cat. No.   |
|------------------|------------|
| P2RD             | 007.48.680 |
| P3RD             | 007.48.682 |

Order qty: 1 pc

**E Adapter for particle filter**

- For use with respirator 007.48.620
- For attaching an additional particle filter

|         | Cat. No.   |
