

Frame fixing

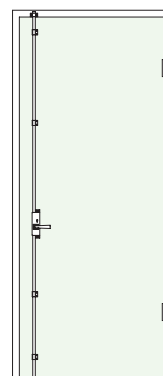

All espagnolette bolts are supplied with both staples and flat striking plates for inward opening doors and angle striking plates for outward opening doors

How to order

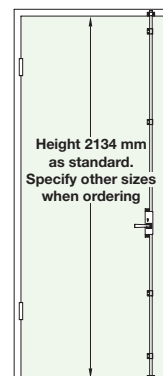

1. The bolts on this page are made to suit the handing required. See illustration for correct handing
2. These bolts are manufactured as standard to suit an opening of 2134 mm. **Should any other size be required please contact us**
3. If ordering an external handle, this should be the opposite hand to the bolt
