Cove-Mate coving and decorative adhesive

- > A high strength, solvent-free, gap-filling coving and decorating adhesive
- > COVE-MATE is a solvent-free, quick grab, interior coving and decorating adhesive. It replaces mechanical fixings in a multitude of home improvement applications. Dries to a white finish and can be over painted once dry
- > Ideal for fixing polystyrene and PU covings, skirting boards, architraves and dado rails, etc. It can be used internally on plaster, brick and stone. It is also suitable for bonding work tops to base units and for bonding cork tiles and cork sheet
- > At least one of the surfaces must be porous
- > On low porosity surfaces or in damp, cold or humid conditions, curing time may be significantly affected
- > Only apply between 5°C and 30°C.
- > 300 ml tube
- > Order qty: 1 pc

> WARNING - Not suitable for polythene, polypropylene, Teflon or nylon. Not recommended for plaster coving
