

SPACE-PLUGS

A simple method to secure units to the wall. Bridges any reasonable gap.

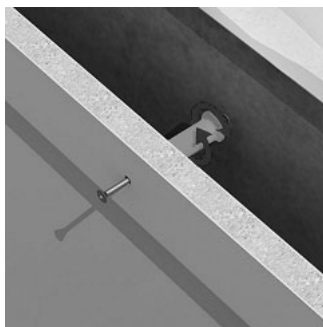

- > Regular: for 30-50 mm gaps
- > Extra large: for 45-80 mm gaps
- > Quick, simple and accurate. Only one screw and fitting normally required
- > Fewer fixing points required
- > Flexible positioning using the entire cross brace, avoiding bad plaster, cables and pipes or line up with wall studs
- > Enables a good fit even on uneven walls
- > Suitable for most fitted furniture
- > Accessible after install
- > Eliminates the need for L brackets

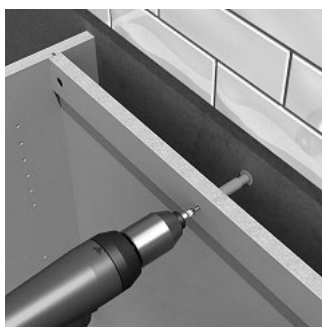

Drill a pilot hole (same size as your masonry bit) through the cross brace, then, with your 200 mm drill bit, drill directly into the wall behind and inset your wall plug

Pass a screw through the cross brace, through the Space-Plug and locate it into the still visible wall plug

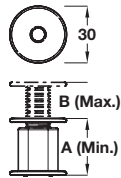

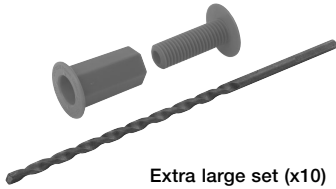

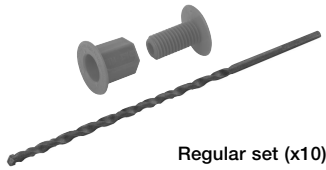

Wind the Space-Plug until it firmly contacts both surfaces

Tighten the screw

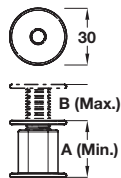

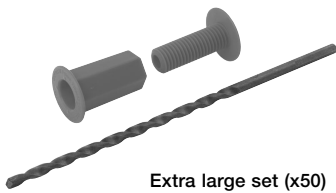

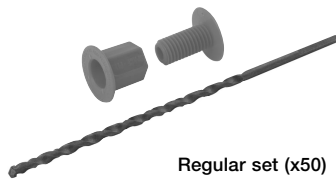

Set of 10 Space-Plugs

- > Set includes:
 - 10x Space-Plugs
 - 1x Standard 6 x 200 mm masonry drill bit
- > Orange plastic
- > Order qty: 1 set
