

ADD ON SOFT CLOSE FITTINGS

- > Eliminates the noise of doors/drawers slamming
- > Once the door/drawer has been opened, the piston is released ready to receive the door/drawer again
- > Can be fitted retrospectively
- > For installation in Ø 10 mm drilled hole or for surface mounting if installed with adapter housing
- > Recommended for doors with width from 450 mm up to 600 mm
- > For doors over 1600 mm high or for aluminium or wooden frame doors, it may be required to use 2 Smove soft closing systems that have to be installed at the top and bottom of furniture side panel

SMOVE piston door buffer

- > Eliminates the noise of doors/drawers slamming
- > For installation in cabinet side panel, opposite the hinge side
- > Position at mid-height to optimise performance
- > For press-fit installation in Ø 10 mm drilled hole
- > For doors 450 to 600 mm wide
- > For doors over 1600 mm high use two SMOVE buffers
- > Plastic
- > Order qty: Multiples of 25 pcs
