Cabinet support bracket

Guide to number of brackets to use:

500 or 600 mm length,
use 2 brackets

1200 mm length,
use 3 brackets

- > Overall measurements (W x D x H) = 55 x 500.5 x 410 mm
- > Total recommended max. load capacity for two brackets is 300 kg, for three brackets 450 kg, provided adequate fixings are used
- > Mounting strip included, with two elongated 5 x 15 mm holes for adjustment and one countersunk Ø 5 mm hole for final fixing
- > Bracket support pin and circlip included
- > The bracket has a 150 mm leg with a grub screw near the bottom which allows the bracket to be levelled to the wall, using an allen key (order allen key separately, Cat. No. 008.28.250)
- > The mounting strip has holes along the whole length allowing the bracket to be hung in any position between the top and bottom of the strip
- > Satin anodised aluminium mounting strip, cream-white epoxy coated steel bracket
- > Order qty: 1 pc
