

EDGE

Edge sinks can be seamlessly fabricated into a variety of worktop surfaces eliminating overhangs and soft sealant joints. Suitable for any domestic or commercial application.

Benefits include no more under/overlaps, clinically clean and hygienic with no more dirty sealant joints.

- > Compatible with hardwood, solid surface, semi-solid surface and premium laminate over 0.8 mm thick
- > Note: Edge Sinks can only be installed in premium range laminates 0.8 mm in thickness or more
- > If in doubt please call your local Area Sales Manager or the Häfele UK Technical team on 0800 171 2908
- > Edge sink installation tools and accessories are available, shown on pages **16-17**
