### Cable window and door restrictor

- > Ideal for houses, apartments, commercial premises and public buildings
- > Limits the opening of doors and windows. Particularly designed with window safety in mind, due to the number of accidents occurring through window openings exceeding that of a child's size
- > Meets testing requirements of safety in use for grade 3 as a child safety holding restrictor according to BS EN 13126-5:2011
- > Lockable. All keys are within a passing group which ensures ease of use within a single dwelling
- > With a cable length of 200 mm
- > Can be fitted on wood, aluminium, PVC and steel
- > Supplied with tamper proof screws; once fitted the likelihood of abuse is minimized
- > Supplied with a disc lock mechanism, will improve the security of buildings and the safety of its occupants
- > Zinc alloy lock case with stainless steel wire cable
- > Order qty: 1 pc
