

BATHROOM TOILET LOCK SET FOR NATIONAL KEY SCHEME

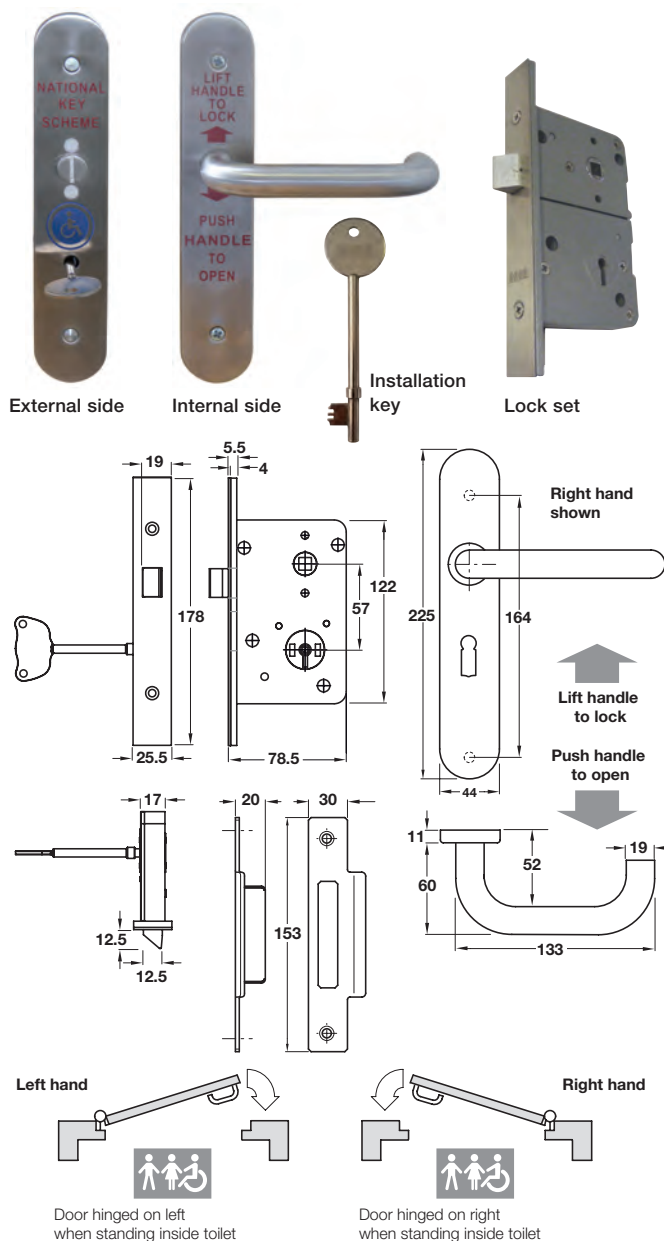

A stainless steel lock set, compatible with the National Key Scheme (NKS).

- > The National Key Scheme operates over 9,000 locked accessible toilets across the UK
- > The NKS approved keys are available to people who require use of toilet facilities due to their health condition or disability, so opens doors to independent living
- > Toilets fitted with the NKS lock sets are now found and specified throughout shopping centres, pubs, cafés, restaurants and public parks throughout the UK
- > The lock set is stainless steel to encourage architects and designers to incorporate keyed access to disabled toilets providing benefits to both security and hygiene
- > Over 25 years the NKS scheme has been adopted by 400+ local authorities, retail and leisure providers – a valuable resource to independent living

NKS key must be ordered separately, Cat. No. 911.78.612

Complete lock set, stainless steel

- > Suitable for external use
- > Return to door (RTD) shaped lever as guidance from the Equality Act
- > Lever furniture is handed – see diagram for correct handing
- > Set includes:
 - 1x Lever handle
 - 1x Faceplate
 - 1x Lock
 - 1x Box strike plate
 - 1x Installation key
- > External red/white indicator and in-built coin emergency release
- > Internally standard lever handle operation to retract latch
- > Locking secured by lifting lever handle from horizontal to upright position
- > Access by key supplied externally only when white indicator showing
- > Automatic locking once the door is closed
- > The fixing height for lever furniture should be fixed between 800-1050 mm, with 900 mm being the preferred position, in order to comply with guidelines in BS 8300
- > Operation:
 - The door is opened from the outside, by use of the NKS key, when the external indicator is white
 - Once inside, the door is locked by lifting the lever upwards
 - To exit, the door is opened by pushing the lever down
- > Interchangeable:
 - The NKS lock can be operated with all current NKS approved keys
 - The NKS lock set comes with mortice lock included and can be retro-fitted
- > Grade 316 stainless steel
- > Order qty: 1 set
- > National Key Scheme key must be ordered separately:
 - 75 mm length
 - NKS logo with Braille
 - Bright red bow fob with key ring hole
- > Order qty: 1 pc
- > The lock set is also available to special order with lever handle in dark blue or white finish - information on request

Lever handles are handed to reduce the impact on the locking mechanism from abuse and to ensure complete retraction of the latch bolt.
If the incorrect hand is fitted the mechanism will not lock when the handle is pushed upwards.
