60cm "Cucina" Compact Combination  
Microwave Oven, Finger friendly St/Steel

EAN13: 8017709176303

- 45cm reduced height compact oven
- 6 functions Inc. Circulaire element with fan
- Electronic timer with end of cooking alarm
- Minute minder
- Air cooling system
- Closed door grill
- Full fan cooking (can also be combined with microwave)
- Metal side supports
- 3 cooking levels
- Stainless steel interior
- 1 x 20W Light
- Nominal power: 3.40 kW
- Grill power: 1.50 kW
- Microwave output power: 1.00 kW
- Oven capacity: gross 37 litres, net 34 litres
- 13 Amp power supply

### STANDARD ACCESSORIES:

Glass tray

Chrome shelf

NB: This product is not suitable for horizontal alignment

## Functions

## Combination microwave:

ovens can be used either as a microwave, or as a traditional oven, or alternatively the two methods can be combined.

## Safe Cook:

Smeg ovens incorporate safe cook, the system for closed door grilling to keep cooking smells inside the oven and ensure a safe cooking environment.

## FINGER-FRIENDLY STAINLESS STEEL:

The st/steel material used on the exteriors of Smeg dishwashers has a finger-friendly finish to assist in maintaining the surfaces in a pristine condition.

## Triple glazed doors:

are featured on several Smeg appliances.

## Air cooling system:

to ensure a safe surface temperatures.

## Circulaire:

The combination of the fan and circular element around it gives a hot air cooking method. This provides many benefits including no preheat if cook time is more than 20 minutes, no flavour transfer when cooking different foods at the same time, less energy, and shorter cook times. Good for all types of food.

## Fan with grill element:

The fan reduces the fierce heat from the grill, providing an excellent method of grilling various foods, chops, steaks, sausages etc. giving even browning and heat distribution, without drying out the food. The top two levels recommended for use, and the lower part of the oven can be used to keep items warm at the same time, an excellent facility when cooking a grilled breakfast. Half grill (centre portion only) is ideal for small quantities of food.

## Grill element:

For rapid cooking and browning of foods. Best results can be obtained by using the top shelf for small items, the lower shelves for larger ones, such as chops or sausages. For half grill heat is generated only at the centre of the element, so is ideal for smaller quantities.

## Microwave:

Penetrating straight into the food, microwaves cook very quickly and with considerable energy savings. Suitable for cooking without fat, they are also able to thaw and heat food without altering its original appearance and aroma. The microwave function can also be combined with conventional functions with all the resulting advantages. Ideal for all types of food.

## Microwave + grill element:

To achieve a combined cooking with grill that cooks the outside whilst assuring an internal cooking thanks to the microwave function.

**Microwave + circulaire:**

To achieve a combined cooking with ventilated heat that cooks in short time thanks to the rotation of the warm air and the microwave.
