6.0 - 6.5	0	0	0
Max	6.5 kg	6.5 kg	6.5 kg

Order 1 x weight pack extension plate **421.68.377**

- > Bracket and extension plate weights are accounted for within the calculations
- > Very low TV and accessory weight may cause the unit to lift too quickly
- > **Min** relates to minimum recommended weight. Weights below this may not provide enough counterbalance for the mechanism and could cause rapid movement that may damage the unit or the installed item.
- > **Max** relates to maximum recommended weight. Weights above this may be possible but may not lift and would become balanced, requiring manual movement.

Accuride DB Lift-0019 mechanical lift

- > Push to open mechanical lift
- > Suitable for screens weighing 2.5-6.5 kg, and up to 450 mm high
- > Travel 538 mm
