

HAWA-220 PLANFRONT 40/70 FLUSH SLIDING DOOR SYSTEM

High quality joinery where sliding doors close flush with a fixed or sliding adjacent panel. Ideal for doors fronting commercial audio-visual display equipment.

- > HAWA-220 Planfront 40/70
- > Range:
 - Max. door panel weight **40/70 kg**
 - Door panel width **400-1500 mm**
 - Door panel thickness **19-45 mm**
- > Ordering note: The remarks "right opening/ left opening" refer to the cupboard as seen from the front, with the doors sliding inside the cabinet to open
- > Each door panel operates on two top tracks and one bottom channel, shorten ends to suit
- > Panel widths in excess of 1500 mm may be possible on application, however two bottom guide channels will then be required which makes installation and final adjustment more difficult
- > Please contact us for further information
- > Full-size drawings, ref. 17915 are available upon request
