- > Not suitable for doors fitted with rising butt hinges
- > Tested to 500,000 cycles
- > Brass face and anchor plates, powder coated mild steel mechanism housing
- > Order qty: 1 pc

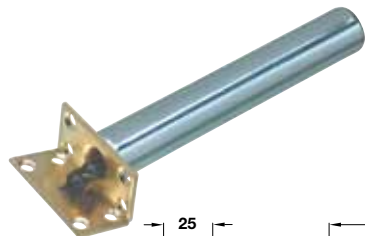

This product is not suitable for use on fire doors in the United Kingdom or European Union, either in a new installation or as a replacement on a notional fire door, as products being used on fire doors must be designated product that carry the CE Mark, or UKCA.

For door controls under EN 1154:1997, this means only hydraulic controlled door closing devices can be used. As these are un-controlled devices, a CE marking is not available as the necessary harmonised European standard has not been published; therefore, it cannot be CE-marked and should not be used on fire doors in areas where CE marking is mandated.

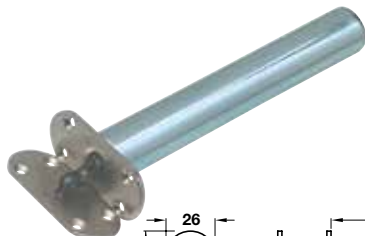

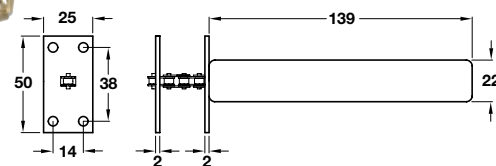

Finish	Cat. No.
Polished brass	931.90.418 
Polished chrome	931.90.412
Satin chrome	931.90.414
