

Shootbolt espagnolette bolt

- > BBA approved
- > Tested to over 200,000 cycles
- > Top shootbolts successfully tested as a critical component within PAS024:2012
- > Supercoat 500 finish for excellent corrosion resistance
- > Adjustable compression by mushroom cams
- > Adjustable throw shootbolts
- > Reduced number of components need to be ordered
- > Simple to install
- > 1x gear box and 2x extensions for bolt
- > 1x central keep and 2x corner keeps
- > Order fixing screws separately
- > BS EN 1670-2007, grade 5
- > Exceeds BS 7950 security
- > Mild steel
- > Extension can be cut down to achieve correct length*
- > Order qty: 1 pc

For window height	Actual length	Min. cut down length*	No. of mushrooms
330-460 mm extension	135 mm	60 mm	0
460-800 mm extension	305 mm	125 mm	1
800-1100 mm extension	455 mm	295 mm	1
1100-1400 mm extension	605 mm	445 mm	2

It is possible to be able to have the gearbox drive at low level, where having it central would prove to be difficult to reach. i.e. behind a sink unit in a kitchen. Just order 1 small extension and 1 longer to meet the required window height

1000 mm window height - use 1 x 330-460 and 1 x 460-800 extension with the gearbox drive

Item	Supercote silver
Gearbox drive (central box)	971.04.000
Extension, 135 mm	971.04.001
Extension, 305 mm	971.04.002
Extension, 455 mm	971.04.003
Extension, 605 mm	971.04.004
