

Loadpro heavy duty Egress/Easy clean friction hinge, for side hung windows

- > Unhanded
- > Allows specifiers and fabricators to conform to BS 5588 Part 1: 1990 and current UK building regulations
- > Hinge quickly provides the minimum required opening of 550 mm wide x 850 mm high with simple one-handed operation in accordance with BS 5588
- > Easy Clean is operated by the simple action of opening the vent to its fullest extent at 90°, releases both top and bottom catches. In this position the window is safe, and can be eased along the track to facilitate cleaning the outside face
- > While cleaning, the hinge remains safe and stable due to a design feature that locks the two sliding mechanisms
- > An integral riser pad makes closing much easier
- > Window labels providing operating instructions are supplied
- > One size only
- > Stay parts: Ferritic stainless steel grade 430
- > Friction slide: Glass-filled nylon
- > Adjustment screws: Brass
- > Order qty: 1 pair

10 Year
