MAIA SOLID SURFACE

A silky smooth finish and inconspicuous joints make Maia's work surfaces a luxurious addition to any home, supplied in a wide range of décors to suit every design, and coupled with a 10 year manufacturer's warranty.

Vanilla finish

- > 15 standard colours
- > 3 mm acrylic sheet bonded to a chipboard core
- > 1 edging strip supplied as standard - worktops only
- > A jointing kit must be ordered separately for each required joint
- > Dark, heavily pigmented colours will show scratches, dust and ordinary wear and tear more easily than light or textured colours and should not be used in high traffic areas. (*These colours require a disclaimer form to be completed prior to worktops being manufactured)
- > Veined decors which reflect the natural appeal of stone. Whilst each joint is seamless and hygienic, there may be a visual difference when two work surfaces are joined as the veining on each work surface is unique
- > FIRA gold award for product excellence
- > 10 Year limited manufacturer's warranty (warranty card included with worktops or online registration form must be completed and returned to the supplier to validate warranty)
- > Prices include delivery to a UK mainland trade address

Illustrations show left hand bowl sinks

> Maia has been developed to be used in the domestic environment, particularly the kitchen. Although no 'special' maintenance is needed we recommend the following is adhered to, as prevention is always better than cure

Routine cleaning:

- > Specialist cleaning regimes are not required – most dirt and light residue will easily wipe away with a damp cloth and soapy water. The work surface should then be rinsed with clean water and wiped dry
- > Persistent marks can be removed by using a mild-abrasive cleaner, but harsh scouring powders should be avoided. If in doubt, consult the care and maintenance guide

Heat:

- > Maia's surfaces will withstand heat better than many alternative surface materials
- > All hot pots, pans and other heat generating devices should always be placed upon a trivet or worktop protector rods, to prevent extreme heat having prolonged and direct contact with the surface
- > Boiling water and cooking splashes do not harm the surface

Staining:

- > Unlike marble and granite, Maia will resist most household chemicals including alcohol and cosmetics
- > Some chemicals and strong dyes can cause damage and discolouration. If spillage occurs wipe off immediately and rinse area thoroughly

Minor scratching:

- > Kitchen utensils and crockery (particularly the unglazed bases) can sometimes cause scratches that will be particularly evident on darker colours
- > The surface can be damaged by scratching or cutting with knives, so the use of a cutting board is essential
- > Any minor scratches can easily be removed using a red abrasive pad and other items from the care kit, please refer to the care and maintenance guide

Installation:

- > Installation is relatively easy, for either a competent DIY enthusiast or recognised kitchen installer to carry out
- > No specialist tooling required. Can be cut using normal woodworking routers and blades

Maia care kit:

- > To help maintain your Maia work surface, a care kit is available. This kit contains all that you need to make minor repairs to the surface and a special cleaner that helps to maintain, protect and build up a lustre particularly on darker colours
- > Please do not use any cleaner other than that included in the Maia care kit, or recommended in the manufacturers instructions, on the work surface as this will affect the appearance and may invalidate your warranty

10 Year
Warranty
