

# MARIZ® COMPACT LAMINATE

Mariz® compact laminate worktops are the ultimate solution for worksurfaces. Expertly created by compiling layers of decorative paper and resin that are fused together under pressure. Mariz® worktops offer unparalleled durability, resistance to impact and heat, and long-lasting performance.

- > 8 standard colours
- > 3 or 12 mm compact laminate
- > Surfaces are both robust and easy to clean, giving you complete peace of mind with their superb performance and quality. When you choose Mariz® surfaces you do so secure in the knowledge that you are buying a proven, reliable product. Mariz® surfaces are truly at the forefront of modern surface technology
- > Factory machined face and edge, all finished by hand - Mariz® worksurfaces are supplied with the key edges ready prepared to ensure the quality of the finish
- > Pre-fabricated, ready to fit, quicker to fit saving time and money
- > FIRA gold award for product excellence
- > 10 year limited manufacturer's warranty (warranty card included with the worktops or online registration form must be completed and returned to the supplier to validate warranty)
- > Prices include delivery to a UK mainland trade address

Solid acrylic sheet with profiled top edge  
Surface finish as per worktops  
3050 x 600 x 3mm  
1500 x 600 x 3mm

### Hob splashbacks

Solid acrylic sheet with all edges square cut  
Surface finish as per worktops  
900 x 750 x 12mm

= Factory finished edges

- > Mariz® surfaces are 'Compact High Pressure Laminates' which meet the requirements of EN438. They are guaranteed against manufacturing defects provided they are fitted in accordance with the installation instructions and are used for their intended purpose

#### Routine cleaning:

- > Mariz® surfaces have a surface that makes cleaning simple. Usually a moist cloth is sufficient, but use washing-up liquid to get rid of any grease. Avoid using harsh cleaning equipment and abrasive cleaners as they may damage the surface. Stubborn dirt or can be removed using mild solvents or proprietary glass cleaners
- > For more detailed advice, there is a care and maintenance booklet in each worktop

#### Cutting and installing:

- > Mariz® surfaces can be cut and installed using conventional woodworking tools – always ensuring that cutters and blades are sharp. This will ensure clean edges for jointing or finishing. You can join Mariz® surfaces using either a butt joint or mason's mitre using biscuit joints and adhesive
- > Adhesives available to complement the Mariz® range of decors. These are available along with the surface installation kit

#### Oven and hob installation:

- > Mariz® surfaces are compatible with most hobs although the 12.5 mm thickness means that some adjustments may be necessary to ensure there is sufficient space between the hob and items beneath. For a single oven the cabinet shelf will usually be moved lower to give correct space for air circulation above
- > Refer to appliance manufacturers instructions to ensure that correct clearances are achieved
