

Mirka® Remote control for DEXOS

- > Suitable for Mirka® DEXOS 1217 dust extractors
- > Designed to enhance the functionality of the Mirka® DEXOS 1217 M AFC. This remote control allows you to start and stop the extractor remotely via Bluetooth, making dust extraction more convenient and efficient
- > Dual operating modes: Auto Sense Mode and Manual Mode
Auto Sense Mode: The dust extractor starts automatically when it detects vibrations from your tool, ensuring seamless operation without any manual intervention
Manual Mode: Control the dust extractor manually using the on/off button
- > Bluetooth connectivity with a range of up to 20 meters
- > Durable design: Encased in a soft protective enclosure, the remote control is engineered for heavy-duty use, ensuring long-lasting performance in various working conditions
- > Easy attachment: The rubber strap is optimized for compatibility with Mirka's hoses
- > LED indicator: A red flashing LED indicator alerts you if the suction flow is insufficient
- > Cost-effective: No need for additional equipment for pneumatic tools. Eliminates the need for a pneumatic box.
- > Compatibility and versatility: The Mirka DEXOS Remote Control is compatible with Mirka® DEXOS 1217 M AFC model. It can be used with a wide range of tools, including electric, pneumatic, and battery-operated tools. For hand tools and cleaning applications using a hose, the remote control can be operated in manual mode
