Mirka® Edge Guide for DEROS II

- > Provides consistent precision angles, increases usability of your DEROS II by making work easier and more ergonomic
- > Suitable for 125 and 150 mm Mirka® DEROS II sanders
- > Ideal for standard edge sanding, bevel or chamfer work
- > Suitable for every edge: raw, painted, filled or processed
- > Keeps the sander steady at the desired angle, preventing tipping or sanding through
- > Adjustable angle from 45° to 90°
- > Fitted with replaceable felt pads that prevent marks and scratches where the Edge Guide meets the work surface
- > Compact design provides easy handling and clear visibility
- > Tool-free attachment with quick and easy setup for a more efficient workflow
- > Order qty: 1 pc

Mirka DEROS II sanders are available to order separately, see **Section 1, Pages 65A & 69C** of this Directory
