

Trend Ø 160 mm PCD fibre cement circular saw blade, coarse finish

- > Ø 160 x 1.4 x Ø 20 mm
- > Precision EDM-ground polycrystalline diamond (PCD) tipped blade
- > For cutting a wide variety of ultra-hard and abrasive materials. For use in circular, plunge, table and mitre saws. Ideal for AQUAPANEL®, HardieBacker®, gypsum, composite decking and cladding, laminate flooring, fibre and glass reinforced polymer and compact laminate worktops
- > Blade kerf 1.8 mm
- > Triple chip ground tooth form with -6° hook eliminates self-feeding for a safe, clean, controlled, cutting action in aluminium, plastics and non-ferrous metals
- > 4 teeth
- > Order qty: 1 pc

Cat. No.

Trend Ø 190 mm PCD fibre cement circular saw blade, coarse finish

- > Ø 190 x 1.6 x Ø 30 mm
- > Precision EDM-ground polycrystalline diamond (PCD) tipped blade
- > For cutting a wide variety of ultra-hard and abrasive materials. For use in circular, plunge, table and mitre saws. Ideal for AQUAPANEL®, HardieBacker®, gypsum, composite decking and cladding, laminate flooring, fibre and glass reinforced polymer and compact laminate worktops
- > Blade kerf 2.2 mm
- > Triple chip ground tooth form with -6° hook eliminates self-feeding for a safe, clean, controlled, cutting action in aluminium, plastics and non-ferrous metals
- > 6 teeth
- > Order qty: 1 pc
