Trend kitchen worktop pack, 1/2" (12.7 mm) shank

- > 1/2" (12.7 mm) shank
- > Three piece cutter set
- > Suitable for a wide range of applications such as engraving, grooving, rebating and shallow mortising. Ideal for kitchen fitting
- > Use on softwoods, hardwoods, MDF, plywood and chipboard
- > Cutter has a bottom cut feature
- > Premium tungsten carbide cutting edges ideal for use in solid timber and abrasive chipboard core worktops
- > Twin flute highly ground tip faces for superior cutting performance and chip clearance
- > Bottom cut feature for plunge cut, slotting and morticing applications
- > 50 mm cutting length for worktops up to 40 mm thick
- > PTFE coated bodies reduces friction, heat and resin build-up for longer lifespan
- > 'K' marked shank ensures correct insertion depth for safer routing
- > Additional shank markings to indicate maximum safe speed and cutter reference number
- > Extra long shank maximises cutter length for applications including router table use, templating and jig work
- > Supplied with:
 - 3x 1/2 " x 50 mm cut length worktop cutters with TC centre tips
- > Order qty: 1 set

	Cat. No.
Kitchen worktop pack	002.19.316

FESTOOL ROUTERS

More powerful and easier to use, the Festool OF 2200 offers the greatest lowend torque, the highest precision and the greatest ergonomic comfort. No matter what the task, with the OF 2200, you have the solution in your hands.
