

BALL BEARING TABLE RUNNERS

Pull out table fittings for tables with frame.

Extending table runners, for single leaf insert

Installation

Load bearing capacity 60 kg

Load bearing capacity 90 kg

- > For 2 more people at the table
- > For 1 extension leaf
- > Synchronous or synchronous with continuous lateral locking mechanism
- > Galvanized steel
- > Order fixing screws separately
- > Order qty: 1 set

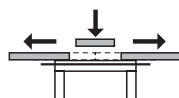

Technical data

Installation length	mm	850	1200
Load bearing capacity	kg	60	90
Opening for extension leaf	mm	640	890
Width of extension leaf	mm	1 x 600	2 x 400
Total extension length	mm	1250	1830
Mounting bracket length	mm	290	338
Recommended table length	mm	900-1200	1250-1800

Note on choice of pull out table fitting:

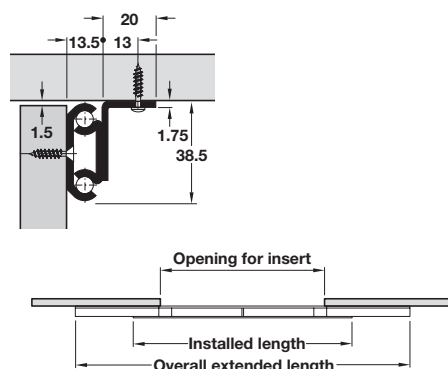

Installation length of pull out table fitting = approx. length of frame/base or approx. 2/3 of table diameter or table length without extension leaves

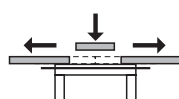

The set does not include 8 table top connecting fittings and 4 locking hooks or 4 swivel lugs. Please order separately, shown in **Section 11** on page **116**

Installed length	Load bearing capacity	Cat. No.
Synchronous with lateral locking mechanism		
850 mm	90 kg	642.59.922
Synchronous		
1200 mm	60 kg	642.59.903

Extending table runners, for single leaf insert

- > Simultaneous action; when one leaf is drawn back, the other withdraws automatically
- > For square, rectangular, round or oval tables
- > Maximum load carrying capacity 60 kg
- > Screw mounted to side of fixed table frame and underside of table
- > Mounting bracket length 290 mm
- > Galvanized steel
- > Order fixing screws separately
- > Order qty: 1 set

Installed length	850 mm
Overall extended length	1250 mm
Opening for insert	640 mm
Cat. No	642.59.902
