

MATRIX BOX P DRAWER LOCKING SYSTEM

Central locking system to lock a drawer or suite of drawers on one side. For use with drawer side sets with 50 kg carrying capacity. Lock for both sides is available - further information on request.

- > Lock for Matrix Box P drawer side runner system
- > Central locking system for lock on one side
- > Central locking bar surface mounted, cabinet process not required
- > For use with drawer side sets with load bearing capacity 35 and 50 kg, 350 mm runner lengths and above

Determining the height units of the central locking bar

Selecting the right central locking bar

The suitable locking bar is determined by

- > the sum of panel height units (HE)
- > in accordance with the series drilled holes

System 32: 1 height unit = 64 mm = 2 x 32 mm

Example: Pedestal consists of:

Stationary drawer with panel height of 1 HE

System drawer with panel height of 2 HE

System drawer with panel height of 3 HE

Choice of central locking bar: 8 HE
