

HECO-TOPIX-PLUS WOOD SCREWS

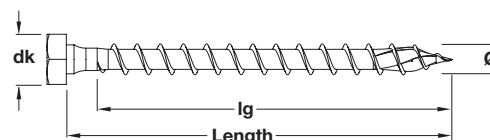

Heco-Topix-Plus is the perfect wood screw for all applications with four innovative properties: HECO-Drive, GripFit, Magic-Close and PerfectPitch, a new integrated drive size concept.

- > Countersunk head with milling grooves - excellent milling features in wood, no damage to the surface with metal fittings
- > Combi hex head - can use torque recess or socket wrench to install screws
- > MagicClose for fully threaded Heco-Topix-plus screws - patented thread pulls timber fixtures together without gaps and without pretension
- > GripFit - single handed working possible thanks to the HECO-Drive, when using a HECO HD driver bit, also compatible with standard Torque bits
- > PerfectPitch - optimal thread pitch for every screw length
- > Application: For structural timber applications used as an alternative to coach screws
- > ETA approved for use timber construction service class 1 and 2
