

IXCONNECT RAFIX-20 SPREADING BOLTS

- > For industry, joiners and cabinet makers
- > Connecting bolt for Rafx housing with ridge:
Quick and easy installation and disassembly without tools
Shelves can be rearranged easily without damaging the drill hole
- > Features:
Spreading sleeve with harpoon-type thread and stop
- > Installation:
Insert spreading sleeve into drill hole by hand until the stop is reached. The dowel is spread and fixed by tightening the Rafx housing. For disassembly, push bolt back into the dowel and pull out of the drill hole together with the spreading sleeve
