

LAMELLO TENSO FURNITURE CONNECTOR

- > The ideal glueing aid:
- > Without using clamps or pressing devices
- > For concealed applications
- > Facilitated storage and transport of the work pieces When using pre-stress clips:
- > Little effort: Only briefly applying pressure is needed for engaging the fitting
- > Easy connection of workpieces, even with several connectors
- > The pre-stress clip is easily pushed in using the installation tool

Lamello Tenso P-14/10 connector component, with pre-stressing facility

- > Area of application: Gluing aid for cabinets with centre panels and intermediate shelves, or column claddings in stores, for drawers, installation of front panels, plug fitting onto plinths, ceiling panels, covers and handle profiles
- > Material: Plastic
- > Routing depth: 14 mm (10 mm)
- > Tolerance specification: Long: ± 1 mm, Radial: ± 1 mm
- > Tensile strength: Approx. 15 kg/connector, pull force: Approx. 25 kg/connector, depending on the adhesive
- > Order qty: See table below
