

AUTOMATIC SPRING CATCHES

Require neither handles nor knobs for their operation, specially developed to produce kitchen units and other built-in furniture with completely flush fronts.

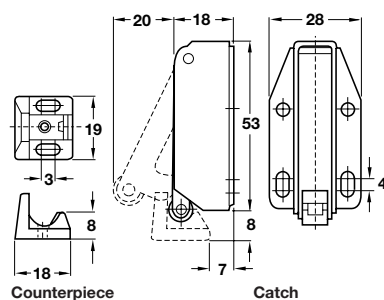

- > The door is automatically opened by simply applying pressure to the door itself, thus activating the release spring in the fitting
- > Light finger pressure on the door is sufficient to close it again
- > Suitable for inset, rebated and butt closing doors

QUICK automatic spring catch

- > Use with unsprung hinges only
- > Steel catch in choice of two finishes
- > White plastic countertop
- > Order qty: 1 pc

Finish	Cat. No.
Burnished	245.55.100
Bright galvanized	245.55.913
