

We recommend that mains voltage lighting be fitted by a qualified electrician

EGLO Fueva 6 LED ceiling light, Ø 280 mm

The Fueva 6 ceiling light impresses with a minimalist design. The integrated LEDs provide even, glare-free illumination. Thanks to the CCT function, the colour temperature can be flexibly adjusted – from warm white light for a cosy atmosphere to cool white light for focused work. With a diameter of 280 mm, the light is perfect for hallways, kitchens, or living areas and blends discreetly into modern and functional interior styles. Its flat design allows for unobtrusive ceiling mounting. A durable and energy-efficient solution for many applications.
