

We recommend that mains voltage lighting be fitted by a qualified electrician

EGLO Portillo wall light

The PORTILLO wall light is a stylish lighting fixture suitable for both modern and classic living concepts. Its cylindrical metal lampshade features a distinctive grooved design reminiscent of industrial or mid-century elements. The matte brass finish gives the light an elegant, warm character. Thanks to the joint on the lamp arm, the spotlight can be individually adjusted—ideal for targeted lighting accents, for example in the hallway, bedroom, or beside the bed. A toggle switch on the round wall mount allows for convenient operation directly on the light. Equipped with a GU10 socket, it is compatible with suitable LED bulbs.
