GLASS SPLASHBACKS AND UPSTANDS

The colourful way to add style to your kitchen.

> Glass colours are for illustration purposes only and may differ to the actual item, due to the limitations of the printing process

1.Opal	5. Ruby	9.Oyster white
2.Ebony	6. Caramel	10.Linen
3.Chalk (matt)	7.Zest	11.Agate grey
4. Aubergine	8.Fuschia	12.Silk grey
		13.Crystal (clear)

> Hygienic and easy to clean. Glass is structurally very strong: combined with the adhesive backing and fixed to a plasterboard wall it takes a huge impact to break the glass. If the glass should break it will not shatter and will be held safely on the wall by the adhesive backing

> Can be fixed to any non-pourous, dry, dust and grease free surface e.g. Plastered walls, gyp board, tiles, MDF, chip board etc.
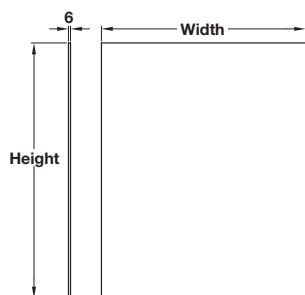

> 2 mm gap should be left around all sides. Must be sealed on all sides with a sanitary silicone sealant after installation to prevent dirt and moisture getting behind. If moisture does get behind the glass it will not effect the adhesive backing and will not be visible from the front face

> Opaque coloured glass - does not allow any show through of background

> Crystal finish is clear glass - to allow background to show through

> Lifetime guarantee on the colour - will not degrade with heat or light
