

## Concealed shelf support with spring, plug in, for Ø 5 mm holes

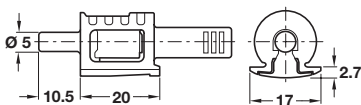

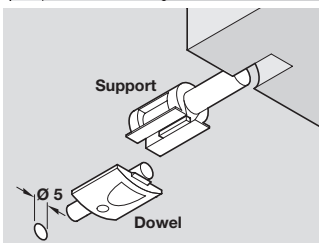

- > Slots into the shelf, edge boring required
- > Consists of a plastic sleeve with a spring inside, which clicks the zinc alloy pin in and out
- > Installing the shelf is easy due to the intentional leeway of the smooth pin heads, which slot into position without damaging the holes, even off-line holes
- > Easy shelf repositioning; just pull back the self-locking clips, to click the pins out of the holes
- > For min. 16 mm shelf thickness
- > For Ø 5 mm hole
- > Plastic
- > Order qty: Multiples of 10 pcs

Finish  
Light grey

Cat. No.  
282.84.500

## Kerala concealed 2-part shelf support, plug in, for Ø 5 mm holes

- > Kerala consists of two elements: support which slotted into the shelf and a plug in dowel
- > Shelf is pressed down onto the dowel and clicks in place
- > Easy shelf repositioning by pulling the sliding clip backwards
- > For min. 16 mm shelf thickness
- > For Ø 5 mm hole
- > Load carrying capacity 25 kg\*
- > Engineering plastic
- > Order qty: Multiples of 10 pcs

Finish  
White

Cat. No.  
282.84.730

> \*Load carrying capacity applies to 4 shelf supports bearing an evenly distributed load. Testing was carried out according to DIN EN 14749: 2005, clause 6.3.3 "Strength of shelf supports"
