

RANGEMASTER SPA FILTER TAPS

The Rangemaster Aquaclassic and Cruciform filter taps can offer simplicity in installation, maintenance and function. Both are easy to install through push-fit connectors and hassle-free to maintain with replacement filter cartridges.

The Aquaclassic and the Cruciform reduce the impurities found in regular tap water, by co-ordinating with a filter to provide pure tasting water.

Instant filtered drinking water: Never buy bottled water again with the spa filter taps - simply push the cold lever backwards, and the diverter directs mains water through an effective, specialist filter cartridge, compactly positioned under the sink. The filter removes all additives from the water, such as chlorine, to create refreshing, crystal clear drinking water direct from the Aquaclassic or Cruciform tap. The user can divert back to unfiltered mains supply for washing up and regular water requirements, simply by pulling the cold lever forwards.

Rangemaster Aquaclassic Spa filter tap
