Solid acrylic sheet with profiled top edge
Surface finish as per worktops
610 x 200 x 25mm
1210 x 200 x 25mm

Routine cleaning:

- > Specialist cleaning regimes are not required – most dirt and light residue will easily wipe away with a damp cloth and soapy water. The work surface should then be rinsed with clean water and wiped dry
- > Persistent marks can be removed by using a mild-abrasive cleaner, but harsh scouring powders should be avoided. If in doubt, consult our care and maintenance guide

Heat:

- > Minerva's surfaces will withstand heat better than many alternative surface materials
- > Boiling water does not harm the surface

Staining:

- > Unlike marble and granite, Minerva will resist most household chemicals including alcohol and cosmetics
- > Some chemicals and strong dyes can cause damage and discolouration. If spillage occurs wipe off immediately and rinse area thoroughly

Minor scratching:

- > Any minor scratches can easily be removed using a red abrasive pad and other items from the care kit, please refer to the care and maintenance guide

Minerva care kit:

- > To help maintain your Minerva work surface, a care kit is available. This kit contains all that you need to make minor repairs to the surface and a special polish that helps to maintain, protect and build up a lustre particularly on darker colours
- > Please do not use any cleaner other than that included in the Minerva care kit, or recommended in the manufacturers instructions, on the work surface as this will affect the appearance and may invalidate your warranty
