

# MIRKA® ABRANET ACE SANDING DISCS

Developed for tougher and more demanding sanding applications.

- > Abranet Ace is an addition to the net family. It utilises the latest ceramic grain technology to give longer life, faster cut, better finish and less sanding defects
- > Which leads to cost savings, faster production times and the perfect finish
- > Suitable for wood, paint and lacquers, filler, solid surface and composite, metal, plastic and numerous other materials
- > Mirka's innovative Net sanding concept is unlike any other. The patented construction means that no dust particle is more than 0.5 mm from a dust extraction hole. The result is phenomenal dust extraction across the entire abrasive surface and virtually dust free sanding
- > Mirka® Net products eliminate the frustrating problem of dust clogging the abrasive and creating pills which cause defects in the sanding surface. Therefore, the Net product retains its original aggressive sanding performance for far longer resulting in fewer abrasives needed for a given job

## Abranet Ace sanding discs, Ø 125 mm

- > Resin over resin bonding
- > Ceramic coated grain
- > Closed coating
- > Net backing
- > Light maroon
- > Order qty: Multiples of 50 pcs

Grit grade	Cat. No.
P80	005.58.420
P120	005.58.421
