- Child safety lock

Nominal power: 6.80 kW

- Supply can vary depending on usage, please consult a qualified electrician for ampere requirement

NB: only pans with a ferrous (magnetic) base are suitable for induction hobs.

Functions

Timer:

All ceramic hobs have a timer which automatically ends cooking after a preset time.

Auto vent:

Auto vent is a smart infrared system which connects the hood and the hob, automatically regulating the hood extraction speed depending on the temperature and power level selected on the hob.

Child lock:

some models are fitted with a device to lock the programme/cycle so it cannot be accidentally changed.

Touch controls:

Easy to use touch controls allow the appliance to be programmed at the touch of a button.

Power booster:

option allows the zone to work at full power when very intense cooking is necessary.

Slider Control:

Easy to use Slider control allows the appliance to be set by rotating your finger on the pad using circular movements
